Department of Economics, New York University, 19 W 4th St, New York, NY 10012

+1 (845) 706-9973 • n.linh@nyu.edu • <https://dlinh-n.github.io/>

EDUCATION

New York University , Graduate School of Arts and Science	New York, NY
Doctor of Philosophy in Economics, Henry M. MacCracken Fellowship, CGPA: 3.72	<i>Aug 2020 – May 2026 (Expected)</i>
Columbia University , School of Engineering and Applied Science	New York, NY
Bachelor of Science in Applied Mathematics, Magna Cum Laude, CGPA: 3.85	<i>May 2015</i>
Bard College	Annandale-on-Hudson, NY
Bachelor of Arts in Economics, Levy Economics Scholarship, CGPA: 3.92	<i>May 2015</i>

RELEVANT TRAINING: applied econometrics; machine learning; demand & supply model design, estimation, simulation

WORK EXPERIENCE

NERA Economic Consulting , Antitrust & Competition	New York, NY
<i>Senior Analyst, Analyst, Associate Analyst, Research Associate; Intern</i>	<i>Jul 2015 – Jul 2020; Jul – Aug 2014</i>
• Implemented economic models for assessing competitive effects of mergers and acquisitions, and estimated harm resulting from alleged anticompetitive conduct in antitrust litigation cases in SAS, R, Stata, and MATLAB • Processed, joined, standardized, and analyzed large-scale structured and unstructured public/proprietary datasets; data frequently exceeded 10 million observations and reached up to 12 billion in the case of consumer loan servicing • Drafted sections of expert reports and prepared technical materials for submission to the FTC, DOJ, and EC • Managed research teams of 2 to 10 analysts; developed and delivered technical training presentations	

RESEARCH EXPERIENCE

New York University , Department of Economics	New York, NY
<i>PhD Student, Dissertation</i>	<i>May 2023 –</i>
• Studied theoretically and empirically the equilibrium implications of open banking in credit markets • Built a novel mortgage search dataset in Python by merging information from multiple high-volume data sources on borrower applications, loan terms, and ex-post delinquency • Used event study panel data methods in R to exploit the entry of an industry-led interoperable network and report new descriptive evidence on the influence of consumer data sharing on mortgage originations, pricing, and default • Designed an econometric framework of binary-type borrower search and lender pricing, estimated the model, and quantified consumer, producer, and social welfare under counterfactual data interoperability regimes in Python	
<i>Co-author with PhD Students A. Berman and N. Hickok (MIT)</i>	<i>Jul 2023 –</i>
• Explored the cost effectiveness and adoption consequences of new and second-hand purchase subsidies for electric cars • Developed a dynamic model of the vehicle market with forward-looking consumer replacement decisions; calibrated the model in Julia using millions of car registrations to analyze equilibria under alternative subsidy designs	
<i>Co-author with Profs. J.E. Humphries (Yale), S. Nelson (Chicago), W. van Dijk (Yale), D. Waldinger (NYU)</i>	<i>Jun 2022 –</i>
• Investigated the main drivers of rental evictions using uniquely collected lease-level property management ledger data • Designed, estimated, and analyzed a model of landlord eviction choice in MATLAB to evaluate the scope for common policies to create tenant forbearance and reduce landlord evictions	
Columbia University , Department of Economics	New York, NY
<i>Co-author with Profs. P.A. Chiappori and B. Salanié (Columbia)</i>	<i>May 2015 – Jun 2019</i>
• Examined estimation bias in one-to-one bipartite matching models when relaxing a standard separability assumption • Designed and built a simulation framework in R for samples of a few hundred individuals with varying characteristics and matching preferences; utilized the Gurobi optimization software to solve for stable matching outcomes	

SKILLS

Languages: Native Bilingual: Vietnamese, Polish; Fluent: English

Computer: Advanced: Python, R, MATLAB, SAS, Microsoft Office; Intermediate: Julia, L^AT_EX; Basic: Stata

WORKING PAPERS

Nonpayment and Eviction in the Rental Housing Market (with J.E. Humphries, S. Nelson, W. van Dijk, and D. Waldinger). November 2024. Submitted. [PDF]

Matching with Random Components: Simulations (with P.A. Chiappori and B. Salanié). December 2019. [PDF]

WORK IN PROGRESS

The Distributional Effects of Data Interoperability: Evidence from the U.S. Residential Mortgage Market

Copyrights and Product Variety: Evidence from the Golden Age of Hip Hop

Out with the Old, In with the New: Equity and Efficiency of Secondary-Market Subsidies for Electric Vehicles (with A. Berman and N. Hickok)

OTHER RELEVANT EXPERIENCE

Columbia University , Department of Economics	New York, NY
<i>Research Assistant to Profs. P.A. Chiappori, B. Salanié, and W. Kopczuk (Columbia)</i>	2014 – 2015

Levy Economics Institute	Annandale-on-Hudson, NY
<i>Research Assistant to Profs. O. Giovannoni and S. DeSilva (Levy/Bard)</i>	2013

TAU Investment Management , Strategy & Transformation	New York, NY
<i>Part-time Intern</i>	February – May 2014

AWARDS, HONORS, AND SCHOLARSHIPS

CV Starr Center Research Funding (2022), New York University	New York, NY
Henry M. MacCracken Fellowship (2020-2025), New York University	New York, NY
NYU Economics Summer Stipend (2020-2021), New York University	New York, NY
Magna Cum Laude (Top 15% of Class of 2015), Columbia University	New York, NY
Dean's List (2013-2015), Columbia University	New York, NY
Amicus Foundation Scholarship (2013), Bard College	Annandale-on-Hudson, NY
Bard Summer Research Institute Stipend (2013), Bard College	Annandale-on-Hudson, NY
Levy Economics Institute Scholarship (2010-2013), Bard College	Annandale-on-Hudson, NY
NCAA Men's Soccer All-Academic Team (2010-2013), Bard College	Annandale-on-Hudson, NY
